

## **CTL Forum**

**The Voice of Faculty Development for the Minnesota State  
Colleges and University System**

---

**Volume Seven, Number 1**

---

**February, 1998**

### **THE CHALLENGES OF CHANGE**

We know that change is always inevitable. The changes that we as MnSCU faculty have experienced the past several years have almost "pushed the envelope". However, what I've witnessed thus far in my new position as a CTL faculty development coordinator is that our faculty members are very durable, continue to provide quality education; and maintain a sense a humor as they are asked to make yet another change. This is where the CTL can not only provide additional direction for statewide faculty development initiatives, but also provide you with the support necessary for on-going projects.

This is our first attempt at distributing the Forum via email to each campus leader. (Please forward it to all faculty, and administrators on your campus, so everyone is aware of the efforts being made statewide.) As you think of new ideas or confront issues that you think should be shared - by all means, let us know. The purpose of the CTL Forum is to act as a statewide communication tool for all issues/concerns revolving around faculty development. Our thanks to those campus leaders who have completed our survey; if you

haven't - it's not too late. Your input is needed!
