The Voice of Faculty Development for the Minnesota State Colleges and University System

Volume Seven, Number 3

September, 1998

THE CHALLENGES OF CHANGE

As MnSCU faculty deal with semester conversion, early starts, and numerous other demands and deadlines, we here at the MnSCU CTL are also experiencing several changes. First of all, as of August 31, our office relocated to Energy Park in St. Paul (complete data below); a new Director of Professional Development will be joining us on September 14 (details below); and Connie Stack, who was one of the faculty development coordinators, was requested by her home campus to return to the classroom (more information of that position later).

So as you are experiencing change, we hope that you are supportive of the changes that are happening at CTL. As proposals have been submitted for the first round of the faculty instructional innovation grants, we are excited with the ideas that you have been proposing. Continue to think "LEARNING BY DOING" - the second round is due on November 15, 1998 - please continue your efforts!

Arlynn Wolf, Faculty Development Coordinator
